

SportsRunner®

*The smooth way
to run your
sports competitions*

Why SportsRunner?

If you are a sports manager, board member or sports competition administrator, you will know the importance of draws and results.

Players, supporters and officials rely on draws and results information that is:

- up to date;
- accurate;
- consistent;
- accessible.

SportsRunner provides you with the tools to help you manage this information, and communicate it rapidly to the people who need it. Using SportsRunner will help you to:

- save time;
- save money;
- reduce mistakes;
- leverage the power of the internet.

What is SportsRunner?

SportsRunner is a highly acclaimed computer application, serving the needs of sports competition organisers. It is easy to learn and easy to use, and can be adapted to the requirements of your organisation.

SportsRunner provides web-based features, uniquely combined with local installation or cloud services.

Along with the product itself, you are offered support and training, customisation, upgrades, database evaluation and consultancy, to ensure you get the maximum benefit.

Who is it for?

SportsRunner will most benefit organisations that run amateur team sport competitions. As well as code-specific editions, SportsRunner also provides a School Sport edition.

Key benefits

Feedback from users shows that benefits include:

- up to 80 per cent saving in time;
- improved accuracy and consistency;
- more professional presentation and distribution;
- enhanced communication with stakeholders.

Key features

With SportsRunner, it is easy to generate draws, manage results and present the information in a format that suits your organisation. Features include:

- flexible but simple generation of playing schedules;
- local or internet entry of results;
- production of points tables and results grids;
- draws or results output specific to each school or club;
- distribution of draws and results information in several modes, including publishing to the internet, transmission to newspapers and email with PDF files;
- integration with online team registration system;
- database of schools and sports organisations;
- output of contacts data in several formats, including mailing labels and summary reports;
- production and tracking of invoices;
- facility to transfer data between SportsRunner users.

Endorsements

Sport and Recreation New Zealand (SPARC) endorses SportsRunner for use by all regional sports directors, and has funded licences on their behalf.

Trade and Enterprise New Zealand supported the SportsRunner development project under its Enterprise Development Grant scheme.

SportsRunner has established a partnership arrangement with New Zealand Secondary Schools Sports Council (NZSSSC).

What will it cost?

Your SportsRunner package is customised to your requirements. Initial purchase price and monthly service charges depend on several factors, including the size and type of organisation, and the usage options you choose. Please contact SportsRunner to discuss how this applies in your case.

Who's using SportsRunner?

SportsRunner software is central to the operations of many leading New Zealand sports organisations. Examples of some of our users are: College Sport Auckland, College Sport Wellington, Primary Sports Canterbury, Hawkes Bay Cricket, Cricket Wellington, Canterbury Cricket, Netball Manawatu, Auckland Softball, Canterbury Softball, Otago Softball, Auckland Hockey, North Harbour Touch, NZ Water Polo, and Volleyball Hawkes Bay.

Who's behind SportsRunner?

Steve Schapel, Executive Director of Data Management Solutions Ltd, leads the SportsRunner team. SportsRunner

is based in Lower Hutt. Steve is experienced in building customised database software in many industries. He is a multiple recipient of the Microsoft MVP (Most Valuable Professional) award. He has been working with sports administrators since 1997.

For more information about how the SportsRunner system might benefit your organisation, or to arrange an online demonstration, please contact:
